

Ankh Institute presents the Kemetic and Nubian 'Way of Life' Courses

Unless you are satisfied with running on the plantation treadmill of inferiority begging cultural-alien gods and their fairytale gods to free you, then enrolling in **The Kemetic and Nubian Way of Life Courses** is for you.

Kemet and Nubia are at the root of African Civilizations and the African Way of Life. Together they represent more than 20,000 years of African history and culture – including the globalization of African civilization. The philosophy and practice of Cosmic Order and Balance (Maat), and the Holistic Way of Life (Twt) are the foundations upon which these societies were established – essential to why they endured for so long.

The Kemetic and Nubian Way of Life Courses examine the origins, developments, systems, philosophy, and practices of these civilizations - and their societies - to understand our history and culture, our identity and way of being. By understanding our African past, connecting to and restoring the Black/African identity and cultural paradigm is made possible.

The Kemetic and Nubian Way of Life Courses make clear the African Cultural Paradigm, and the way to reconnecting to our Ancestors and Culture.
